Product Interchangeability Feature

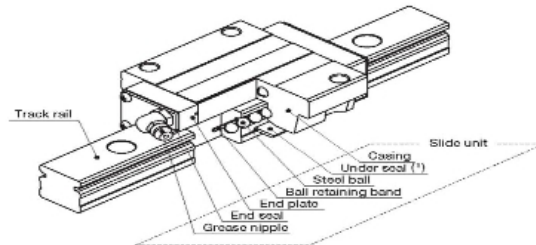

Call CDWdrives now and talk to our engineers. Learn more about IKO and their other competitive advantages

A Better Linear Way

You might refer to them as Linear Guides, Linear Rails, Profile Rails or Linear Motion Guides. By any name, ours are a better value and here is why...

The IKO Difference A Better Value

Ball Type - Linear Way

1. Fast Service

Our products are typically shipped in two weeks or less from the receipt of your order, including the time it takes to cut the rails to length.

Why wait months for your order?

2. Interchangeable

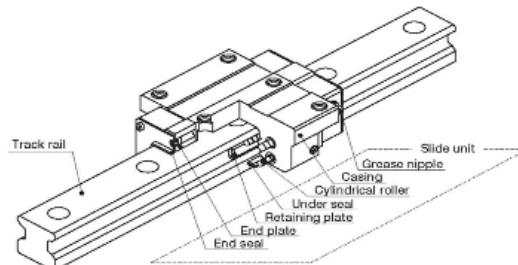

Our rails and carriages are interchangeable with competitive products or within the guide system itself.

You do not have to purchase a separately matched set when one component fails.

3. Maintenance Free

Our proprietary lubrication system allows our product to be maintenance free for 20,000 km or five years.

Maintenance free is our guarantee.

Roller Type - Linear Way
