Replacement Impact Bars

Replacement Blades

Modular Liners

Aggregate Sheets

BULK MATERIAL HANDLING PRODUCTS

Conveyor Belt Cleaning Systems

The Micro Eraser is your answer for portable equipment with tight clearance issues. Designed with our 6" tall Raptor blade, it works best on belts up to 48" wide with head pulleys of 28" diameter or less. This economical but powerful system is comparable to our competition's standard system.

Conveyor Skirting

Wedge-Loc is designed to be easy to install and adjust. Simply stitch weld or bolt into place, install your skirting, drop it to the belt, then knock the wedges to lock it down.

Use Wedge-Loc to replace your old busted or worn-out clamping systems and install your choice of skirting: Fold-n-Seal or KS01.

The Wedge-Loc frame is made of 12-gauge galvanized steel and the clamping utilizes a stainless steel-to-brass thread contact, coupled with a cast aluminum wedge to ensure continuous operation in the most corrosive and abusive environments.

Screen Deck Parts

V Plows

Dirt and rocks can get caught between the belt and pulleys, ripping holes and creating hours of costly downtime. The V-Max and E-Max V-Plows provide adjustable down force, so nothing gets through.
