EQUIPMENT FITNESS EVALUATION from CDW DRIVES

A NEW SERVICE FOR OUR CUSTOMERS

Start the year out right with Carlson-Dimond & Wright

Your Power Transmission Equipment...

Have you ever wondered if your power transmission equipment is running properly or at peak efficiency? Is it delivering the return on investment that you require? How can you know for sure?

The Answer is Simple

Request an on-site equipment fitness evaluation visit. We will dispatch one of our trained technicians to do a complete evaluation of your power transmission equipment and other systems. Following the visit you will receive a written evaluation report that will include recommendations for performance improvement.

Drive Systems Integrators - Engineered Solutions

Assembly Plant Elevator

Rotating Biological Contactor (RBC's)
