- Screw Feeders • Grit Washers
- Blenders • Screw Compactors
- Heat Transfer Screw • Mixers
- Portable or Shaftless Conveyors
- Bulk Bag Discharge Stations
- Rail Car Unloaders • Bucket Elevators

Screw Conveyors

Screw Conveyors are one of the oldest and simplest devices used for the movement of bulk materials. Screw conveyors are compact and easily adapted to congested locations. They can be used as a mixer or agitator, to mix and blend dry or wet ingredients. Screw conveyors are available in a wide variety of materials to resist corrosion, abrasion or heat. Horizontal, inclined, or vertical conveyors are also available. Thomas Conveyor is one of the largest custom screw conveyor manufacturers in North America.
